NSC REVIEW
COMPLETED

6 January 1984

WORKING PAPER

MEMORANDUM FOR: DEPUTY DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Policy of DCI in Implementation of NSCID No. 5

1. Attached are two documents which it is believed will be of interest to you. The first is a letter that Gen. Bolling, in his capacity as G-2, wrote to Gen. Smith in November, 1981, which may be said to have started the present "formal" series of negotiations on Agreed Activities. It is believed that you will find this letter particularly interesting as the Army apparently has considerably modified its position on Agreed Activities since this letter was sent, but no official letter, so far as we know, has been transmitted by the Army to CIA setting forth the changed position and the reasons for the change.

2. The other attachment is a second draft of a position statement being prepared by the DD/P "Agreed Activities" Task Force. At the meeting of this Task Force with you on 31 December, you expressed an interest in seeing this Task Force draft paper. Your paper, which you distributed to the Task Force members at that time, was of course taken into consideration in preparing this draft. As you know, this Task Force has also been developing an Agreed Activities agreement which will incorporate the substance of your paper and will be transmitted to you when staff action has been completed.
